Housing Rehabilitation Loan Program

Program Overview

The Egremont Board of Selectmen, working in conjunction with The Resource Inc., seeks applicants for a regional housing rehabilitation program. The funding is provided by the Massachusetts Executive Office of Housing and Livable Communities and allows a **0% interest, deferred, forgivable loan** to make critical repairs to your home. This program is designed to improve existing housing conditions of low- and moderate-income resident households by eliminating code violations. Eligible repair activities will include, but not be limited to, electrical, heating and plumbing work; minor structural repairs; roof and siding repairs; insulation and window replacement; lead paint and asbestos removal; and handicap accessibility improvements.

ELIGIBILITY

Preliminary eligibility is defined as an applicant meeting the initial eligibility requirements, as laid out in the pre-application, in order to qualify to begin the housing rehabilitation application process. Final eligibility is determined after the fully completed loan application and all supporting documentation is received, reviewed and accepted by the TRI Housing Rehab Program Manager.

Applicants: This program is offered to owner-occupied single-family/multi-family and investor-owned units in the Towns of Egremont, Great Barrington, and Monterey. If the structure is a single-family owner-occupied unit, the owner must meet income guidelines of low to moderate income. If the structure contains year-round rental units, at least 51% of all the households including rental units/renters must meet these income limits. The applicant must be the property owner of record for the proposed residential structure. *Please refer to the table for income levels based on household size.*

Family Size	1	2	3	4	5	6	7	8
Very Low Income	34,900	39,850	44,850	49,800	53,800	57,800	61,800	65,750
Low Income	55,800	63,800	71,750	79,700	86,100	92,500	98,850	105,250

CONSTRUCTION

Structures: The primary purpose of the deferred payment loan program is to bring deteriorated residential units into compliance with all applicable Federal, State and Local codes. To be eligible, a structure or portion thereof must be residential and contain one or more code violations. Note: All code violations must be corrected as a condition of participating in the TRI Housing Rehabilitation Program. A Housing Rehab Specialist will conduct a site visit and develop a detailed work write-up and cost estimate. The Housing Rehab Specialist will then review these items with the homeowner. NOTE: TRI Housing Rehabilitation Program is a moderate rehabilitation program. If upon completion of a site visit, detailed write-up and cost estimate, the Housing Rehab Specialist determines that the dollars needed far exceed program limits, the project can be deemed infeasible, and funding denied.

FUNDING MECHANISM-DEFERRED PAYMENT LOANS

The TRI Housing Rehabilitation Program offers Deferred-Payment Loans (DPLs) to finance the rehabilitation of eligible projects. The maximum DPL is \$45,000 per unit to address code violations. An additional \$5,000 per unit is available when improvements include removal of lead paint or asbestos, making handicapped access, septic system replacement or multiple energy-efficiency enhancements. The DPL is secured by a lien placed on the property for a period of 15 years. The interest rate is 0%. The DPL will be forgiven at a rate of 1/15th per year provided the property owner(s) are not in any way in default; therefore, Deferred-Payment Loans do not require monthly loan payments. If a property is sold or transferred within the 15-year period after rehabilitation completion, the funds will be recaptured on a prorated basis. After the 15-year recapture period expires, the loan is forgiven.

CDBG GRANT

Serving year-round LMI (low-moderate income) residents of Egremont, Great Barrington and Monterey.

To be funded through a Community Development Block Grant (CDBG) from the MA Executive Office of Housing and Livable Communities (EOHLC)

PRIORITIES OF THE PROGRAM ARE TO:

⚙️ **Correct and update health/safety issues, building envelope updates, energy efficiency upgrades, address lead paint hazards in residences owned and occupied year-round by LMI residents** ⚙️

⚙️ **Improve the supply of affordable-rent units for year-round LMI tenants** ⚙️

Up to \$50,000 per unit is available for properties in Egremont, Great Barrington and Monterey.

PROGRAM GUIDELINES

The TRI Housing Rehab Loan Program is funded through an annual Community Development Block Grant (CDBG) awarded by the MA Executive Office of Housing and Livable Communities (EOHLC) to help preserve existing housing stock for year-round residents of the Towns of Egremont, Great Barrington and Monterey. The program addresses critical repairs on private homes, owner-occupied and investor-owned rental units - who income qualify according to LMI (low-moderate income) guidelines set by HUD (per income tables at the end of this document).

The Resource Inc. (TRI) is a non-profit agency that over the past few decades has been involved in the delivery of several grant rounds of CDBG Funds. This responsibility includes all implementation, monitoring and reporting tasks according to EOHLC guidelines on behalf of the Grantee.

GRANT PRACTICES AND PRIORITIES:

It is part of the TRI's mandate to identify and solicit eligible applications from property owners in Egremont, Great Barrington and Monterey. We do this through a variety of outreach initiatives, which include working with the active support of community partners in the participating towns.

Applications for loans are processed on a first-come, first-served basis. Once qualified, a project may be assessed and ranked against other qualified applications in terms of code priorities; any emergency need takes priority (e.g., failed heating system in winter). On occasion, TRI must reject applications despite the presence of eligible work. Reasons for this may include lack of program funds; conditions requiring substantial rehab beyond scope of the program; costs exceeding program limits; title issues; ineligible tenants; and factors that suggest the borrower may be unable to comply with the terms of the program.

I. PROPERTY GUIDELINES

A. Owner-Occupied Single-Family Units (Primary Residence)

1. Declining loans structured as mortgages are made to owner-occupied single-family units to cover essential upgrades on a primary residence. The declining loan is secured by a property lien recorded at the Berkshire County Registry of Deeds. This lien is removed by a mortgage discharge after 15 years of compliance by the borrower has passed; the loan balance declines by 1/15th in each year of compliance until it reaches zero.
2. Borrowers must hold title to the property (LMI life tenants may apply as long as owner agrees and signs).
3. All those named on a deed must agree to the loan by signing all legal documents even if they do not occupy the premises.
4. The maximum loan amount of \$50,000 is available to rehab dwellings only.
5. All loans are developed within a "moderate" rehabilitation framework for code, health, and safety upgrades.
6. Borrowers must meet LMI income guidelines set out in the chart below according to household size.
7. Borrowers whose property does not remain their primary residence throughout the loan term must either pay back the loan balance or rent the property to a LMI tenant year-round at a fair market rent set by HUD.
8. No penalties will be assigned provided borrowers remain in compliance and notify TRI of any changes of property status. (Participating Towns will document compliance annually, by letter, for the term.)
9. The borrower may sell the property during the 15-year term. Upon the sale or transfer of the property, the owner will repay the unforgiven portion of the loan. (Participating Towns allocate this income to community projects.)
10. Direct heirs may assume the loan and its obligations if title to the property transfers before term ends. They may live in the property, find eligible LMI year-round tenants for the property, or sell the property and pay back the remaining balance due.
11. On occasion, borrowers are permitted or may be required to provide a portion of total costs; such funds are the sole responsibility of the property owner and must be verified prior to loan approval.

B. Rental Units: Single, Multi--Family, or Accessory Units in a Single-Family Residence

1. Declining loans structured as mortgages are made to owners of units in existing buildings to be upgraded rental units that house LMI (low-moderate income) tenants year-round at fair market rents set by HUD.
2. The loan is secured by a property lien recorded at the Berkshire County Registry of Deeds. This lien is removed by a mortgage discharge after 15 years of compliance by the borrower has passed; the loan declines in each year of compliance by 1/15th until the balance reaches zero.
3. The 15-year deed restriction remains with the property for the full term of the loan. In the event of a sale, the buyer must assume the rental restriction on the property for the remainder of term of the loan.
4. Direct heirs may assume the loan and its obligations if title to the property transfers before term ends.

5. Properties with up to 7 rental unit(s) may be eligible for funding of up to \$50,000 per unit. Decisions on rental units are based on the income of the owner and tenant(s) in the property, the degree of construction required, and availability of program funds.
6. Landlords who qualify within LMI guidelines are eligible to apply for loans which will cover 100% of the rehab costs.
7. Landlords who are determined to be “above income” may apply for loan covering up to 50% of the rehab costs; they must contribute the other 50%.
8. Landlords must have income-certified existing or prospective tenant(s) in order to qualify for a loan. TRI provides forms for certification; tenant selection otherwise is the sole responsibility of the landlord.
9. Participating Towns may perform an annual audit by letter, including verification of tenants and rents, throughout the 15-year term of the loan. (Non-compliance by owner’s risks default penalties.)
10. Acquisition of zoning variances and special permits are the sole responsibility of the property owner.

II. HOUSING REHABILITATION LOAN TERMS

- A. Up to \$50,000 per owner-occupied or rental unit is conveyed in a declining Deferred Forgivable Loan (DFL) at 0% interest for a 15-year term, secured by a property lien recorded at the Berkshire County Registry of Deeds.
- B. The 0% DFL is forgiven (declines) by 1/15th annually, provided the borrower(s) remain in compliance. The entire loan is forgiven, and the recorded mortgage is discharged at term end.
- C. Loan-related costs are included in the DFL and are reflected in closing documents, including but not limited to recording fee, credit check, and lead inspection fees.
- D. A key aspect of this program is the ability to “leverage” funds to supplement funding by the TRI Housing Rehabilitation Loan Program. Greylock Federal Credit Union offers up to \$50,000 for loans at more competitive rates than otherwise offered. Other possible sources of leveraged funds include: property owner’s funds; DOE’s Weatherization Program, “HEARTWAP” heating assistance program, MassSave and Keyspan Energy programs all offered through USDA Section 504 loan/grant program and Construct.

III. PROPERTY CODE, HEALTH AND SAFETY REPAIRS AND UPGRADES

The priority of the program is to correct all code violations, structural and sanitary; this includes deleading if circumstances require it. Within EOHL guidelines, the program covers the repairing/upgrading of exterior items, including roofs, trim, gutters, entry doors, et al. Improving energy efficiency is also a key program goal. All repairs and upgrades must align with State, Federal and local building and safety codes and be approved according to State and local historic and environmental regulations. Some examples of typical rehabilitation work performed include roof and siding replacement or repairs, window and door upgrades, well and septic replacements, weatherization and heating upgrades, electrical and plumbing upgrades, handicapped accessibility, and egress improvements.

Certain code deficiencies must be addressed regardless of client expectations if program funds are to be made available at all. These are determined in advance as part of an overall work plan agreed with the client. Typical small maintenance repairs, cosmetic upgrades and/or remodeling are not program-approved uses of CDBG funds.

IV. PROGRAM TECHNICAL ASSISTANCE ON PROJECT DEVELOPMENT AND IMPLEMENTATION

The TRI Housing Rehabilitation Loan Program develops and implements projects through the services of licensed and insured rehab specialists and general contractors who have registered their credentials, including excellent references, to the staff program manager. The housing rehab specialist inspects the property and prepares a work write-up based on code issues that are present, in consultation with the homeowner and within EOHL budget limits. The work write-up is submitted to the homeowner for review and agreement before being sent out to bid by general contractors registered with the program. Once a project is under contract and construction, the TRI rehab specialist and program manager, or their designee, inspect the ongoing work through to completion of the project.

CDBG HOUSING REHAB PROGRAM

CDBG FUNDED PROJECTS, REIMBURSABLE COSTS & WHO IS RESPONSIBLE

I/We certify and acknowledge this program, **funded by the Community Block Grant under the Department of Housing and Urban Development and overseen by the MA Executive Office of Housing and Livable Communities**, is benefiting low to moderate income persons, based on their household income. Further, that the purpose of this program is to improve the aging housing stock in our area, to address the lack of affordable housing for year-round residents in our communities and to strengthen and preserve safe housing for our local families.

I/We acknowledge that the terms of the **CDBG Housing Rehab Program**, will require me/us to sign a Mortgage, a Promissory Note, and a Deferred Forgivable Loan Agreement which have been explained to us and a copy of the documents are available for me/us review at any time.

I/We acknowledge and understand our participation in the Housing Rehab Program is first and foremost because we are a part of a greater community, that there is always a higher demand than there are funds to meet the growing need for home repairs; that funding for all projects draw from a single allocation to the CDBG Housing Rehab Program, and that only necessary repairs will be made and that special attention be paid to incurring costs only essential to the completion of the project according to the federal, state, and local regulations customary in the residential construction industry.

I/We acknowledge that the funds will be distributed by TRI to a pre-qualified general contractor through a bidding process for the purposes set forth in a scope of work (the Work Write Up/WWU) as prepared by the licensed Housing Rehab Specialist and will be used for only those purposes laid out in the WWU. Further, that I/we will ask questions concerning the program, the process and that I/we will agree and accept the results of a Final WWU and that all specified work will be done according the federal, state, and local regulations customary in the residential construction industry.

I/We acknowledge that there are costs incurred leading up to and subsequent to the loan closing that are considered essential and/or required by law that TRI will pay; that ***those costs will be wrapped into the loan amount and identified as "Reimbursable Costs"***. I/We acknowledge these costs are covered by TRI to relieve the recipient of undo financial burden and to move the process/project along in a smooth, efficient, and timely manner ***but are 100% the responsibility of the recipient*** and are expected to be reimbursed with signing of the mortgage documents. Upon receipt of the mortgage documents, MA EOHLC will then release the project funds to TRI for the disbursement of payment for services rendered in relation to the project. Such reimbursable costs will/may include but are not limited to:

- a. Credit report
- b. Mortgage Recording fees at the Registry of Deeds
- c. Lead Inspection – lead paint hazards
- d. Engineering services – septic design, approvals, and inspections
- e. Water test
- f. Housing Rehab Specialist fees (while not part of the mortgage this is part of the overall grant allocation)

CDBG HOUSING REHAB PROGRAM

I/We certify that I/we have been explained the program and process to my/our satisfaction and that should I/we renege on the terms of this agreement and fail to move forward with the project after incurring the reimbursable costs to TRI, that I/we will be responsible for those costs. TRI will present to me/us a detailed invoice of those costs and provide copies of the services paid; in turn I/we remit a check payable to TRI for that amount.
